1936.

THE NEW ZEALAND

JOURNAL OF AGRICULTURE.

VOLUME 52.

(January–June, 1936.)

INDEX.

A.

Agricultural legislation of 1935, 30.
Akaroa Peninsula, certified cocksfoot grown on, 47.
Allan, H. H.—St. John's wort and allied species, 207.
Answers to inquiries, 126, 189.
Apiary, the (monthly notes), 57, 120, 184, 247, 313, 377.
Application of orchard sprays, 34, 172.
Aston, B. C., Bruce, J. A., and Thompson, F. B.—Chemistry of weed-killers, 137.
Aston, B. C., and Grimmett, R. E. R.—Pampas-grass as fodder, 267.
Auckland Province, farming in the; observations on farm-management methods, 65, 160, 196, 295, 330.

B.

Barberry, seedless, in Southland, 8.
Barley, varieties, season 1935–36, 174.
Beekeeping, 253.
Blair, I. D.—
Sprouted wheat for seed, 317.
The foot-rot disease of wheat, 129.
Blake, T. A. — Tuberculosis in farm animals, 226.
Blow-flies attacking sheep, 190.
Blue lupins, effect of cold on, 189.
Borer in timber, 253.
Bruce, J. A.—See Aston, Bruce, and Thompson.
Brien, R. M., and Chamberlain, E. E.—Tomato-seedling, damping off, 257.

C.

Calder, G. G.—Survey of production of irrigation farms in Galloway Flat, Central Otago, 44.
Canterbury farmers' field competitions, results in, 1934–35, 89.
Canterbury, results from pasture top-dressing in, 351.
Canterbury, the winter-feeding of stock in, 76.
Cattle, parasitic diseases in young, 93.
Cattle, treatment for worms in, 319.
Certification of seed potatoes, 354.
Certification, seed-wheat, 188, 238, 303, 382.
Chamberlain, E. E. — See Brien and Chamberlain.
Chamberlain, E. E., and Taylor, G. G. —The occurrence of spotted wilt on tomatoes in New Zealand, 9.
Chemistry of weed-killers, 137.
Citrus-culture (monthly notes), 54, 117, 181, 244, 310, 374.
Cockayne, A. H., appointed Director-General of Agriculture, 347.
Cocksfoot, certified, grown on Akaroa Peninsula, 47.
Comparison of growth in sexed and unsexed pullets, 293.
Competition, Ellesmere, farm-management, 1934–35, 94.
Competitions, farmers' field, Canterbury results, 1934–35, 89.
Connell, R. P.—
The farm, 48, 112, 117, 239, 304, 367.
Special crops for use in pig-keeping, 220.

Control of rushes by mowing, 275.
Cottier, W.—The use of insecticides in the control of the white butterfly, 24.
Cox, G. A., and Whitehead, H. R.—Streptococci which produce a substance inhibiting the growth of lactic streptococci, 38.
Cream, quality, investigation of, 321.
Cream, sale of pasteurized, by dairy companies, 61.
Crops, special, for use in pig-keeping, 220.
Cussen, C. J. C. — Poultry - keeping (monthly notes), 54, 118, 182, 245, 311, 375.

D.

Dairy cows, Government official herd-testing of purebred, 21.
Dairy cows, testing of purebred : Review of certificate of record system, 1935, 147.
Dairy Division—A modification of the walk-through milking-shed, 236.
Dairy factories (licensing) regulations, 1936, 237.
Dairy industry in New Zealand, refrigeration in, 213.
Dairy suppliers regulations, 1936, 302.
Dairy - factory managers' regulations, 1934, amendment No. 2, 33.
Dallas, W. K.—Lemon-curing for small growers, 103.
Damping-off, tomato seedling, 257.
Dayus, C. V.—Vaccination against pulpy kidney (infectious interotoxæmia) in lambs, 289.
Dermatitis, facial, in sheep in New Zealand, 98.
Dominion Meteorological Office, weather records, 63, 127, 191, 255, 319, 383.
Dosing of sheep for the control of parasites, 254.
Drenching sheep, 190.
Dry mash versus wet mash, 233.

E.

Earp, E. A. — The Apiary (monthly notes), 57, 120, 184, 247, 313, 377.
Effect of cold on blue lupins, 189.
Ellesmere farm - management competition, 1934–35, 94.
Elphick, E. E.—Care necessary in use of worm drench for sheep, 292.
Experiments with two organic-mercury seed-dusts, 231.

F.

Facial dermatitis in sheep in New Zealand, 98.
Farm animals, tuberculosis in, 226.
Farm, the (monthly notes), 48, 112, 117, 239, 304, 367.
Farmers' field competitions : Canterbury results, 1934–35, 89.
Farming in the Auckland Province : Observations on farm - management methods, 65, 160, 196, 295, 330.
Farm - management : Ellesmere competition, 1934–35, 94.
Feeding of stock in Canterbury : Winter feeding, 76.
Fields Division—
Certification of seed potatoes, 354.
Seed-wheat certification, 188, 238, 303, 382.
Wheat variety trials in the South Island, 1934–35, 193.
Foot-rot disease of wheat, the, 129.
Fowl, throat trouble in, 318.
Free-martins, 126.
Fruit, New-Zealand-grown (local sales) regulations, 1935, 62.

G.

Gastro-enteritis, parasitic, of lambs and hoggets, 111.
Gibbs, J. G.—Pelargonium rust, 142.
Gill, D. A.—Pulpy kidney (infectious enterotoxæmia) and allied diseases of lambs, 168.
Government official herd-testing of purebred dairy cows, 21.
Government pedigree stock seed, 61.
Grimmett, R. E. R.—See Aston and Grimmett.

H.

Hamilton, R. G.—The Orchard (monthly notes), 52, 116, 180, 243, 308, 371.
Herd-books and milk-recording, international standardizing of, 206.
Herd-testing, Government official, of purebred dairy cows, 1934–35, 21.
Hernia of horse, 189.
Hoggets, parasitic gastro-enteritis of, 111.
Hoggets, wintering of, 348.
Hopkirk, C. S. M.—
Dosing of sheep for the control of parasites, 254.
Facial dermatitis in sheep in New Zealand, 98.
Parasitic gastro-enteritis in lambs and hoggets, 111.
Horse, hernia of, 189.

Horses, lice on, 189.
Horticulture (monthly notes), 58, 122, 185, 249, 314, 379.
Hyde, W. C. — Horticulture (monthly notes), 58, 122, 185, 249, 314, 379.

I.

Infectious enterotoxæmia and allied diseases of lambs, 168.
Inquiries, answers to, 126, 189.
Insecticides, the use of, in the control of the white butterfly, 24.
International standardizing of herd-books and milk-testing, 206.
Inventions of agricultural interest, 111, 176, 254.
Investigation of cream quality, 321.
Irrigation farms, survey of production of, on Galloway Flat, Central Otago, 44.

J.

Jourdain, W. L.—
Comparison of growth in sexed and unsexed pullets, 293.
Dry mash versus wet mash, 233.

L.

Lactic streptococci, streptococci which produce a substance inhibiting the growth of, 38.
Lambing percentages, method of assessing, 318.
Lambs and hoggets, parasitic gastro-enteritis of, 111.
Lambs, pulpy kidney and allied diseases of, 168.
Leitch, C. C.—See McKay and Leitch.
Lemon-curing for small growers, 103.
Lice on horses, 189.
Lime, the use of, on New Zealand pastures, 1.
Live-stock Division—How to forward pathological specimens to the Veterinary Laboratory, Wallaceville, 175.

M.

McGillivray, R.—Results from pasture top-dressing in Canterbury, 351.
McIlwaine, J. E. — The wintering of hoggets, 348.
McKay, J. G., and Leitch, C. C. — Farmers' field competitions, 1934–35: Results, 89.
McMeekan, C. P. — Critical study of important factors in successful pig-keeping, 278.
Manuka control in Otago, 106.
Mash, dry, versus wet mash, 233.
Method of assessing lambing percentage, 318.
Milking-shed, a modification of the walk-through, 236.
Milk-recording and herd-books, international standardizing of, 206.
Modification of the walk-through milking-shed, 236.
Morrison, A. E.—
Agricultural legislation of 1935, 30.
Sale of pasteurized cream by dairy companies, 61.
Dairy-factory managers' regulations, 1934, amendment No. 2, 33.
Dairy factories (licensing) regulations, 1936, 237.
Dairy suppliers regulations, the, 302.
Moth, the potato-tuber, 85.
Muggeridge, J.—The potato-tuber moth, 85.

N.

Neill, J. C. — Experiments with two organic-mercury seed-dusts, 231.
New-Zealand-grown fruit (local sales) regulations, 1935, 62.

O.

Occurrence of spotted wilt on tomatoes in New Zealand, 9.
Orange-tree, transplanting, 126.
Orchard, the (monthly notes), 52, 116, 180, 243, 308, 371.
Orchard sprays, application of, 34, 172.
Organic-mercury seed dusts, experiments with, 231.
Otago, manuka control in, 106.
Overseas trade, 176.

P.

Pampas-grass (*Cortaderia selloana*) as fodder, 267.
Parasitic diseases in young cattle, 93.
Parasitic gastro-enteritis of lambs and hoggets, 111.
Pastures, the use of lime on New Zealand, 1.
Pasture top-dressing in Canterbury, results from, 351.
Pathological specimens, how to forward to the Veterinary Laboratory, Wallaceville, 175.
Paynter, L.—Citrus notes (monthly), 54, 117, 181, 244, 310, 374.
Pelargonium rust, 142.
Phthorimaea operculella, 85.

Pig-keeping, critical study of important factors in successful, 278.
Pig-keeping, special crops for use in, 220.
Potatoes, certification of seed, 354.
Potato-tuber moth, the, 85.
Poultry-keeping (monthly notes), 54, 118, 182, 245, 311, 375.
" Profitable Poultry-keeping " (review), 125.
Pullets, comparison of growth in sexed and unsexed, 293.
Pulpy kidney in lambs (infectious enterotoxæmia) and allied diseases, 168.
Pulpy kidney in lambs, vaccination of ewes against, 289.

R.

Reakes, Dr. C. J., Director-General of Agriculture, retirement of, 277.
Refrigeration in the dairy industry in New Zealand, 213.
Regulations, the dairy-factory managers', 1934, amendment No. 2, 33.
Results from pasture top-dressing in Canterbury, 351.
Retirement of Dr. C. J. Reakes, Director-General of Agriculture, 277.
Review : " Profitable Poultry-keeping," 125.
Review : " Toadstools and Mushrooms and Larger Fungi of South Australia," 62.
Rushes, control of, by mowing, 275.

S.

St. John's wort and allied species, 207.
Sale of pasteurized cream by dairy companies, 61.
Scott, M. J.—The winter-feeding of stock in Canterbury, 76.
Seasonal notes, 48, 112, 117, 239, 304, 367.
Seed-dusts, experiments with two organic mercury, 231.
Seedless barberry in Southland, 8.
Seed potatoes, certification of, 354.
Seed-wheat certification, 188, 238, 303, 382.
Sheep, blow-flies attacking, 190.
Sheep, care necessary in use of drench for, 292.
Sheep, dosing of, for control of parasites, 254.
Sheep, drenching, 190.
Sheep, facial dermatitis in, in New Zealand, 98.
Singleton, W. M.—
Government official herd-testing of pure-bred dairy cows, 1934–35, 21.
Testing of pure-bred dairy cows, 1935, 147.
Smallfield, P. W.—Farming in the Auckland Province : Observations on farm-management methods, 65, 160, 196, 295, 330.
Smith, J. M.—Manuka control in Otago, 106.
Special crops for use in pig-keeping, 220.
Spotted wilt, the occurrence of, on tomatoes in New Zealand, 9.
Streptococci which produce a substance inhibiting the growth of lactic streptococci, 38.
Stirling, A. M.—Investigation of cream quality, 321.
Stock, the winter-feeding of, in Canterbury, 76.
Stuart, A.—Winton Experimental and Demonstration Farm : Work for 1934–35, 18.
Survey of production of irrigation farms on Galloway Flat, Central Otago, 44.

T.

Taylor, G. G.—
Application of orchard sprays, 34, 172.
See Chamberlain and Taylor.
Testing of pure-bred dairy cows : Review of certificate-of-record system in 1935, 147.
Thompson, F. B.—See Aston, Bruce, and Thompson.
Throat trouble in fowl, 318.
Timber, borer in, 253.
" Toadstools and Mushrooms and other Larger Fungi of South Australia " (review), 62.
Tomatoes, the occurrence of spotted wilt on, in New Zealand, 9.
Tomato-seedling, damping off, 257.
Transplanting orange-tree, 126.
Tuberculosis in farm animals, 226.
Tutu-poisoning, treatment for, 190.

U.

Use of insecticides in the control of the white butterfly, 24.

V.

Vaccination of ewes against pulpy kidney (infectious enterotoxæmia) in lambs, 289.
Valentine, G. M.—Refrigeration in the dairy industry in New Zealand, 213.
Varieties of barley, season 1935–36, 174.
Veterinary Laboratory, Wallaceville, how to forward pathological specimens to, 175.
Vine-culture under glass, 338.

W.

Weather records (monthly), 63, 127, 191, 255, 319, 383.
Weed-killers, chemistry of, 137.
Weston, I. W.—Ellesmere farm-management competition, 1934–35, 94.
Wheat seed-certification, 188, 238, 303, 382.
Wheat, sprouted, for seed, 317.
Wheat, the foot-rot disease of, 129.
Wheat variety trials in the South Island, 1934–35, 193.
White butterfly, the use of insecticides in the control of, 24.
Whitehead, H. R.—See Cox and Whitehead.
Wintering of hoggets, 348.
Winton Experimental and Demonstration Farm: Work for season 1934–35, 18.
Woodcock, J. W.—The use of lime on New Zealand pastures, 1.
Woodfin, J. C.—Vine-culture under glass, 338.
Worm-drench for sheep, care necessary in use of, 292.
Worms in cattle, treatment for, 318.
